IV. EMERGENCY RELATED BUSINESS

4.1 Amendments to Policy Statement 143, Rules of Procedure for the Cary Town Council
Speaker: Sean R Stegall, Town Manager

Executive Summary: The Council adopted Policy Statement 143 Rules of Procedure for the Cary Town Council (“Rules”), as a set of “favored procedures to look to and follow” when conducting Council meetings. The Rules permit council members to participate electronically in meetings, but prohibit members participating electronically from voting. Given the nature of the current COVID-19 pandemic, and the potential for future events that may hinder full, in-person attendance at council meetings, amendments to the Rules are proposed to permit members participating electronically to vote. Other minor amendments are proposed to align the Rules with current practice.

4.2 Amendments to Chapter 12 of the Town of Cary Code of Ordinances
Speaker: Sean R. Stegall, Town Manager

Executive Summary: State law provides municipalities with the authority and responsibility to prevent, prepare for, respond to, and recover from emergencies. In order to utilize these authorities, municipalities must enact their own ordinances. Cary’s current emergency management ordinance implements some, but not all, of these authorities within its corporate limits. The amendments being proposed will implement the remaining authorities and improve Cary’s ability to prevent, prepare for, respond to, and recover from emergencies.

Recommendation: Staff recommends that Council adopt the attached amendments to Chapter 12 of the Town of Cary Code of Ordinances.
